

## **Top Twelve Shaklee Products for Cancer Patients**

**Alfalfa**—Cancer WILL NOT GROW or METASIZE in an alkaline body. Most American's pH is very acid. Using 30 to 40 Shaklee Alfalfa per day can help the body's PH become more alkaline--slowly, and/or stopping cancer growth.

**NutriFeron**—This product is unique to Shaklee. It increases the natural interferon the body can produce. Synthetic interferon is a powerful, but expensive cancer treatment (with some not too nice side effects). Interferon stops tumor production in the body. We have incredible testimonies on its effect for Hepatitis C, and 4 clinical studies on this one product. It is a long-term stimulant for increasing macrophage (big eater) production—important protector cells in the immune system

**Immunity I**—This is a T-Cell (cells in immune system—T-Helper, T-Killer, T-suppressor & B- Cell) nutrient boost for these important cells. When fighting disease you want many of these cells reproducing—and doing their job really well.

**Liver DTX**—This product works to cleanse, stimulate and regenerate the liver cells when necessary. Since the liver cleanses the blood, when disease is present in order for it not to spread, you need a liver that is working at peak performance. And when drugs like chemo are administered, the LIVER takes the biggest hit. Many cancer patients never die from the cancer, but from the effect of the chemo on the liver.

**Optiflora**—this is a two-part product—pre-biotic & pro-biotic. It contains the only guaranteed, live delivery of healthy intestinal flora, the bacteria's—bifidus & acidophilus. This is the body's first line of defense and when in a diseased state, the body is normally wiped out of these wonderful soldiers—especially when antibiotics and chemo are administered. The statement "Most disease begins in the colon" is so true.

**Carotomax**—This is a complex of carotenoids, including Beta Carotene, Lycopene etc. The mucosal membrane tissue in the body (which is what much of the lung tissue is) needs lots of the carotenoids. They can actually heal damaged tissue. I've worked with people with ulcers, damaged tissue in the mucosal membrane lining of the stomach & with people who had vaginal tissue (mucosal membrane) that was showing precancerous cells—when therapeutic levels of Carotomax (10 per day) was introduced—amazing healing happened to the cells.

**Flavomax**—this is a powerful antioxidant product which will fight free radicals. It contains six key classes of flavonoids: proanthocyanidins, anthocyan-idins, flavan-3-ols, flavones, flavonols, and flavanones. Shaklee uses standardized extracts of each of these flavonoids to ensure potency and quality. Flavonoids are potent, water-soluble antioxidants that have been linked to healthy blood circulation, strong capillaries, and veins. Flavonoids also deliver anti-oxidant protection to blood and blood-rich tissues, such as the liver and the intestines. Unfortunately, few diets provide these important phytonutrients in significant quantities, since flavonoids are often found in seeds, rinds, and skins, parts of fruits and vegetables that are likely to be tossed away during food preparation. Many people dislike eating the skins of fruits and vegetables.

**Vita C**—Mega amounts of vitamin C 10,000 or more milligrams per day—has been shown via the Linus Pauling Clinic to have dramatic effects when the body is fighting disease. It stimulates white blood cell production and the cells of the body that have extra C have a greater chance of reproducing without mutating. Cancer is simply our own cells gone hay wire when reproducing.

**Soy Protein**—Eliminating animal protein is important and using vegetable proteins are more easily digested and they don't have all the antibiotic residues etc. that contribute to disease! Protein is the key to energy and the reproduction of healthy cells.

**EZ Gest**—Digestion takes a lot of energy from a body—using digestive enzymes can help this process use less energy so more goes into fighting and healing and actually helps break down foods better so more nutrients are bio available to the cells.

## *Wings of Eagles – Helping You Soar to Great Health*

**Herb Lax**—Drugs effect the peristaltic action of the colon. (the natural kneading movement) drugs slow the elimination process way down and many times a patient fighting disease gets backed up and constipated. Eliminating toxicity is very important in healing.

**Performance**—Hydration drinks. Even being 1% dehydrated for a person that is not fighting a disease effects, mental ability, and fatigue levels. When you are fighting, you must stay hydrated—lots of purified water, but adding this formulation—you are adding trace minerals that are very important for healing.

**Bonus Product – Get Clean** – the cleaners in the home have proven to contribute to many debilitating illnesses including cancer. Remove all toxic cleaners and switch to Get Clean to give your home a clean bill of health and protect your health.

### **RECOVERY AFTER SURGERY**

Recovery from Surgery Use 4 to 6 weeks after surgery and then only as needed

1. Hydration & Electrolyte Replacement **PERFORMANCE** (Orange or Lemon-Lime) Before Surgery and immediately after therapy
2. Muscle Recovery **PHYSIQUE** - with Bio-Build Rebuilds torn muscle tissue
3. Wound Healing **ZINC**
4. Cartilage Rebuilding **JOINT HEALTH COMPLEX**
5. Natural Sleeping **SLEEP COMPLEX**(only if necessary)
6. **VitalMag**—magnesium supplement extremely important to replenish helps with muscle healing—important after surgery or chemo.

### **DETOXIFYING FROM CHEMO & RADIATION (Use for 4 months)**

1. **LIVER DTX** - Milk Thistle regenerates the liver\*\*
2. **ALFALFA** - Natural body deodorizer
3. **HERB LAX** - Blood and colon cleanser
4. **FIBER** - removes toxins from the system
5. **STOMACH SOOTHING COMPLEX**- helps restore proper digestion - also helps with nausea
6. **OPTI-FLORA** - brings intestinal bacteria back to normal
7. **BEST WATER** - purified water prevents more toxins from getting into the system and flushes entire system

### **PREVENTING CANCER REOCCURRENCE** (use every day)

1. **SOY ENERGIZING PROTEIN** –In testing the isoflavones in soy have shown some great results to prevent cancer cells from forming **Estrogenic and anti proliferative properties of genistein and other flavonoids in human breast cancer cells in vitro Nutrition and Cancer (USA) 1997, 17/1 (31-40)**
2. **ANTIOXIDANTS:**
  - a. Vitamin E Plus
  - b. Carotomax
  - c. Flavomax
  - d. Vitamin C prevents new free radical damage
3. **B-COMPLEX & STRESS RELIEF COMPLEX** - Stress Reliever
4. **GLA** - Essential fatty acids help control excess surges of hormones

### **REBUILDING THE IMMUNE SYSTEM** (Use 2 to 4 months)

1. Shaklee **Defend & Resist** –10 days on 3 days off –short term immune system builder
2. **Garlic** –natural anti bacterial, antiviral, anti fungal that will help fight off bugs that are attacking you while your immune system is rebuilding.
3. **Immunity I** –nutrient formula specific for the B-Cells, T-Cells, Macrophage Cells
4. **Nutriferon**—BALANCES immune system, increases Macrophage production, and stimulates Natural Interferon—helps to stop tumor reproduction.

## *Wings of Eagles – Helping You Soar to Great Health*

Because of cancer treatments, white blood cells and t-cells are affected greatly. They need to be rebuilt as soon as possible!

### WHY SHAKLEE?

1. Dr. Forrest C. Shaklee was a Chiropractor who went through school with his friend, BJ Palmer, the father of chiropractic care. Dr. Shaklee also held degrees in nutrition, biochemistry, philosophy and divinity.
2. He practiced chiropractic care until he was 65 years old. Then he launched Shaklee Corporation to market the products he spent his lifetime developing. His dream was to share the products and better health with the world.
3. Shaklee nutritional products are recognized by the government as food. Many nutritional companies are considered drug companies.
4. Shaklee has their own products clinically tested by outside, unbiased sources (such as Yale University and Harvard University) providing scientific proof that these products break down and are utilized by your body. Hundreds of these tests are published in peer-reviewed nutritional and medical journals such as:
  - A. The American Journal of Clinical Nutrition
  - B. The Journal of Nutrition
  - C. The Journal of the American Dietetic Association
  - D. The Journal of Applied Physiology, and
  - E. The American Journal of Cardiology
5. Some companies cite other companies' clinical studies, but their actual products have never been tested because it is not required by law. Many companies pay to have info in advertising journals.
6. Shaklee products are all balanced and are the most natural supplement available. Being food-based, they contain essential known nutrients, unknown nutrients, phytochemicals and enzymes.
7. Shaklee has its own research and development lab in Hayward, CA, and a second lab built in conjunction with the Stanford University in Palo Alto, CA. The Shaklee manufacturing plant is in Norman, Oklahoma - Most vitamin companies just purchase their vitamins from a central lab and put their own labels on them.
8. Shaklee spends in excess of \$12 million per year on research and testing. Shaklee has over 150 scientists on staff, and an advisory board consisting of doctors, professors, and scientists from leading industries and universities around the world.
9. As many as 176 separate tests for purity, potency and safety are performed on the ingredients for a single product. All Shaklee product claims have documented substantiation. Products undergo as many as 262 separate quality assurance tests throughout the manufacturing process.
10. Shaklee products are 100% guaranteed.
