

**Mouse Anti-Tubulin (clone 3F3-G2)
Monoclonal Antibody**

Catalog Number: LMAB-3F3
Quantity: 100 μ l
Specificity: Reacts with vertebrate forms of β -
tubulin.
Immunogen: Rat brain extract.
Isotype: IgM

Immunohistochemical Stain.

The picture shows an immunohistochemical stain of adult mouse lung that was embedded in paraffin and stained with anti-anti-tubulin (1:1200 dilution). Tubulin was visualized by DAB (black color) and counterstained with Nuclear Fast Red (pink color). Magnification 20x.

Applications and Suggested Dilutions*

Immunoblots – 1:500

Indirect Immunofluorescence – 1:500

Immunohistochemistry – 1:500

*Specific dilutions and blocking conditions should be determined by the investigator.

QC Testing

Immunohistochemical staining.

Supplied As

Ascites fluid containing 0.01% sodium azide to preserve.

Storage

Store at -70°C recommended, however, the antibody should be stable for months at -20°C and for weeks at 4°C Multiple freeze/thaw cycles not recommended.
