## About us

**Flashfx** have been providing licensed firework displays and special effects for over 25 years. We make extra effort to select only the best materials, even having some products specially manufactured or designed for us.

**Flashfx** are the leading company for wedding firework displays in Norfolk, having provided many happy couples with the ultimate finale to their special day.

**Flashfx** have a wide array of public and private locations where we continue to please the audience, always at very competitive rates and without compromising quality or performance. We are flexible enough to accommodate almost every budget and continue to work closely with some of the best firework manufacturers around the world to ensure our customers always get quality at an affordable price.

**Flashfx** undertakes all of their own risk assessments for any event it provides, has full public liability insurance cover and licensed to use category four fireworks (which includes mortar shells and larger calibre fireworks not available for the general public to use).

Most of our firers are registered with the **British Pyrotechnists Association** which is an industry standard recognised organisation. We also ensure that training and development of every individual is given priority, with safety being extremely important for every event.

**Flashfx** are an Accredited member of **Buy Local** which, as the name suggests, is here to encourage growth and stability in the local Norfolk economy. For further information about this organisation simply click on the logo below which will direct you to their web site.

**Flashfx** can now provide you with the award winning Brothers Pyrotechnics fireworks to create your own display, we have hand-picked the best and biggest fireworks from their range – simply click on the Brothers Pyrotechnics logo on the home page to view some of the products we can supply, and contact us for prices and availability.
