

JAW DROPPING BACKDROPS

If you really want to make an impression, one of these fabulous backdrops will do the trick...or treat!

Backdrops are very effective at setting the tone for an event. Use them to tie in your theme, colors, & props. Set one up outside your front entrance, or in your foyer to create a spooky photo op for guests. They also look great in a large open room behind your dance floor.

HAUNTING GHOST CHAIRS

We think this Ghost Chair by Kartell would make a fabulous addition to your Halloween table! Imagine a dark, smoky room with an orange or amber glow. Your party guests seated on these barely-there Ghost Chairs would be just that special touch that sets your event apart!

(Oh, and no kidding, that's what they're REALLY called!)

For those who prefer a more solid look, these chairs are also available in Black & White.

TABLE LINENS TO DIE FOR

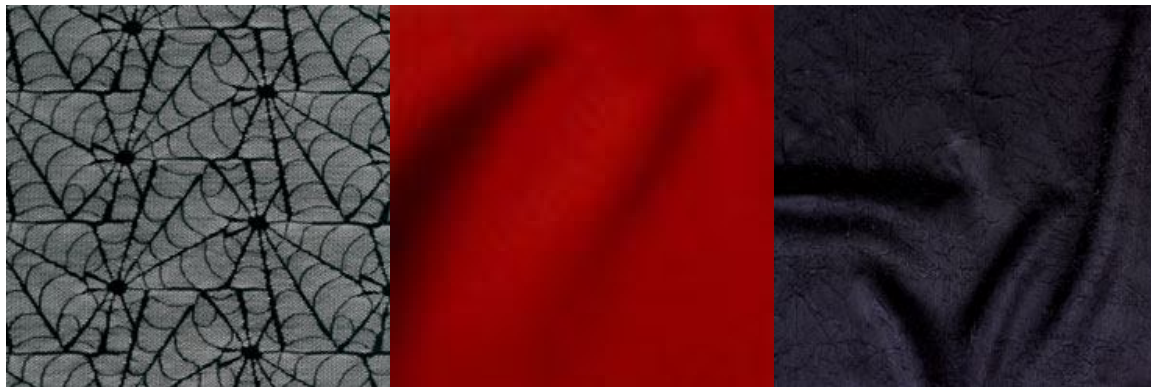

Don't be a slave to the traditional black & orange color scheme. Resurrect your décor with some table covers & napkins in ghoulishly fun colors that play on the Halloween theme. Go ahead and try something different...IF YOU DARE! Here are a couple of suggestions to get you started.

THEME: The Gothic Sophisticate

Who says Halloween parties have to be all blood & gore? Give your event an upscale feel with this Reverse Black-Orleans table linen. Add a coordinating napkin in Melon Bengaline and table skirting in Black Metallic Shag to round out this phenomenal look! We recommend elegant antique props, such as candelabras & mirrors to add to the authenticity.

THEME: CREEPY-CRAWLY THINGS

Okay, so maybe blood & gore is your thing. That's fine, too! Use this specialty Spider Web linen to completely creep your guests out. The accenting napkin in classic red and black Bichon table cover will turn your humble home into a House of Horrors! We recommend lots of fake spiders, bloody fangs, and a coffin to complete the décor.
