

I Just Felt A Breeze

Verse 1: Sometimes when troubles get you down and you don't know which way to turn; you look around all over town and you see there's no place to go. I have a friend who's tried and true. With everything He's all brand new. He'll stir your soul put your name on the roll and His breeze will comfort you.

Chorus: I Just Felt A Breeze, a Holy Ghost breeze, moving in my soul; I Just Felt A Breeze, a Holy Ghost breeze stirring in my soul. When the Lord starts to blessing and your cup over fills; Praise the Lord you'll know it's real; I Just Felt A Breeze, a Holy Ghost Breeze stirring in my soul.

Verse 2: Now when you go to church in this modern day and you see how formal we are; we're all dressed up in our proper attire and we don't plan to sing in the choir. We're afraid the Lord will come on the scene, we'll have a desire to praise the king; so come on church put your hands in the air and feel His gentle breeze.
