Intuitive Development: Level 1

Main Goals:

- Discovering the psychic qualities each individual already possesses
- Learning how to enter altered states to begin to receive impressions, symbols, and feelings
- Include breathing exercises, Mindfulness training, and quieting mental chatter
- Psychometry, receiving impressions from objects
- Opening the heart, getting out of the head

Summary:

In the first part of Level 1, each student will work in both classroom and one-on-one settings to ascertain what qualities they possess in terms of abilities to communicate with Spirit.

Simple Introduction to Types of Psychic Abilities:

- Clairsentience is the ability to receive or perceive information in a vibratory form, and at a higher level than that which is comprehended by the senses of sight or hearing. For those of you who are clairsentient, you may get “gut feelings” or “sense” things from time to time.
- Clairaudient people may hear voices that sound muffled, as if coming from a great distance. For those of you who are clairaudient, the Spirit will develop a special “language” for communicating with you, and after a while it might add clairsentient abilities to help augment its messages.
- Clairvoyance is the ability to picture information or an event. For those of you who are clairvoyant, you may see things without your using your physical eyes.
- The Difference between psychics and mediums: Psychics perceive, and mediums receive.

The second half of Level 1 will focus on designing an individualized program, with exercises for each student based upon his or her specific psychic qualities. Then, Hans will guide the class to perform exercises to start communicating with Spirit using the following techniques:

- Stilling the mind to allow Spirit to enter
- Learning to trust your intuition
- Understanding that psychic development is spiritual development

Intuitive Development: Level 2

Main Goals:

- Selecting individual techniques specifically for each person
- Guided exercises in a peaceful and safe environment
- Learning discernment
- Differentiating between spiritual and emotional feeling
- Knowing the difference between conscious thinking and having awareness of received information

Summary:

Level 2 will be a much more hands-on workshop, as by now, each student should understand their specific qualities which can be used to communicate with Spirit. Smaller class sizes will ensure individualized hands-on guidance and coaching by Hans. Guided and individual exercises throughout Level 2 will ensure each student will be able to use his or her psychic qualities with positive results.

- Students will be introduced to Automatic Writing, which is writing material, either pictures or words, which do not come from the conscious thoughts of the writer.
- Students will begin to use Pendulums to obtain answers as well.
- Students will begin to practice perception of auras
- Exercises for Opening the third eye will be practiced

Intuitive Development: Level 3

Main Goals:

- Guided individualized practice
- Understanding working with the public
- Meeting challenges in a positive manner
- Being exposed to working with the public
- Using guidance in everyday decision processes

Summary:

The beginning of Level 3 will re-acquaint each person with his or her qualities to communicate with Spirit in a controlled environment. This is a warm up session for the rest of the Level 3 class.

Then, Hans will provide real life examples of what it is like to be in service and work with the public. Each issue and pitfall will be discussed, and then followed with a way to overcome the obstacle in a positive manner (e.g. what to do when someone is not available to be helped).

Finally, the public will be invited to the school for student readings. (This is great!) Previously, all readings were done in a safe and guided environment in order to develop each student's skills. The final test will be for each student to show that a student has mastered his or her specific qualities and can provide specific information meant to help an unknown individual.

Upon completion of Levels 1, 2 and 3, students that show acumen in their abilities to receive and provide information from Spirit will be given a Certificate from the Hans King School of Mediumship.

Also, we will post the graduates contact information on www.HansKing.com so that people seeking guidance in your area can contact you.
