GAMES TBA						

Our 9th grade summer program is designed to integrate incoming freshman and introduce them the basic principles of our program. In order to play in the games you must be at the practices, however, **NOT ALL PARTICIPANTS WILL BE ASKED TO PLAY EACH GAME.**

Participating in the summer program **does not** assure you a spot on the regular season team but it certainly helps!

We want young men that are dedicated to their academics and to the sport of basketball. Those two attributes will assure that we can continue our program's success.

See you this summer!
