Up Lighting / Head Table Lighting

These lights can be placed behind the head table, the entrance way, columns, walls, dance floor, tent or anywhere else. It can change the room into many different colours including blue, red, green, purple, aqua, yellow, or baby blue. They don't produce any heat and are safe around small and tight areas, against fabric and any material.

Table Pin Spot Lighting

These lights are placed on covered stands around the room and pointed towards the centre of each table to light up the centrepiece. They are a great way to add more ambient lighting to the room, and draw attention to each centrepiece on every table.

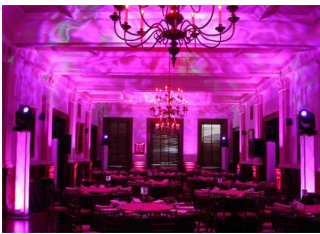

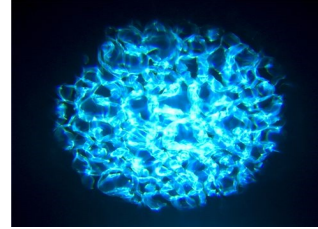

Monogram / Pattern Lighting

These lights can project custom monograms, patterns and text onto the walls, ceiling, floor, backdrop or any other surface. Some patterns available include snowflakes, snowmen, trees, leaves, hearts, pumpkins, and many more. Available colours include white, blue, green, red, aqua, purple, yellow, pink and baby blue.

Rippling Water Effect Lighting

These lights can be placed to project onto the head table, the entrance way, columns, walls, dance floor, ceiling, tents or anywhere else. It can change the room into many different colours and give the effect of a rippling pool of water. They don't produce any heat and are safe around small and tight areas, against fabric and any material.

Textured / Pattern Lighting

These lights are placed around the room and pointed towards the ceiling, walls, floor or backdrop to create a textured wash on any surface. They can be programmed to slowly move and rotate. Many patterns and colours are available. The lights sit atop of a lit square column and are placed in safe spots within the room.

Under Table Lighting

These lights are placed under the table to make the skirting on the tables glow. They are great for the head table, cake table, gift table, snake table, buffet table or any other table that has a white skirt. It can slowly change different colours, or stay on the colour of your choice. They don't produce any heat and are safe around small and tight areas, against fabric and any material.

Twinkle Lighting

These lights are perfect to add behind the head table, on the table or anywhere to add a little extra lighting. Both the bulb and cable are white.

Bubble Machine

The Bubble Machine produces hundreds of floating bubbles in the air. Perfect for the grand entrance, or first dance. They are safe and easy to clean up.

Icicle Lighting

These lights are perfect to add behind the head table, on the table or anywhere to add a little extra lighting. Both the bulb and cable are white.

Low Lying Fog Machine

The Low Lying Fog Machine produces a fog that stays close to the ground, giving the effect of clouds. Perfect for the grand entrance or first dance. They are safe and easy to clean up.

Chinese Lanterns

These Chinese Lanterns are perfect to place outside, or under a tent to add some extra decor lighting.

Fog Machine

The Fog Machine produces a large cloud of smoke. A great effect for a grand entrance or first dance. It is safe and easy to clean up.

Fire Effect Lighting

The Fire Effect Lighting can be placed anywhere in the room and project onto the wall, ceiling, head table, dance floor or any surface. It simulates a crackling fire and flames.

Centrepiece Lighting

This light can be placed under the table centrepiece to light them up. Also acts as a base for the centrepiece.
