

Dear baby,

The world is so great because God created it. We could lose this precious gift from God because people all around us are polluting. The Earth is sick and we are the doctors that could heal her. If we recycle and conserve energy we could make differences. We could volunteer to pick up litter around the neighborhood and save paper by using every single centimeter on a piece of paper before starting a new piece of paper. Paper comes from trees and if we use all of the trees we won't have oxygen to breathe.

People also aren't living peacefully under God's roof too. Wars are going on in the middle-east and children watch as their loved ones die or even die themselves. They starve to death because they don't have money to buy food. The homeless also has no money but you can help. If you have a dollar, or a quarter, or even a penny, you can donate it to them. It feels good to help others in need and if you do good deeds, God knows what you did.

When you grow up, there has to be differences between you and another person. You don't fight with them when you're mad, you try to work it out. If you do work it out with that person, you might even become good friends with that person. Even if it didn't work out you still respect him or her. God created us equal so don't look down on others.
