

God gave us lots of wonderful gifts like plants and animals. But I think the best gift God gave us is babies. Babies are so special because they make people very happy. Babies need lots of love and attention because they are helpless. People can't help being kind to them. When you're nice to a baby

and the baby smiles, it makes you
feel very happy. Babies are our
future so let's take care of all
the babies in the world.
