

# OPTILED

Shaping the Future of Light

**New LED lamp manufacturers are popping up every day.**

Before deciding on which brand to use for your next project, see if they can pass the **OptiLED "YES" Challenge:**

**Are their lamps UL listed (*and labeled*)?**

**Do they use genuine Cree chips in all their products?**

**Have their lamps been certified by Lutron for dimming?**

**Have all of their products passed LM79 testing?\***

**Are they actively seeking Energy Star's endorsement on all of their products?**

\*Required for Energy Star certification. Test copies available upon request

**When all answers are "YES" you can move to OptiLED and install with confidence!**

Energy Solutions offers a full array of customized lighting and energy design solutions. We partner only with leading manufacturers to ensure the highest in quality and client satisfaction. Contact us to see if an OptiLED solution is right for your application:
