

Fabric Hat

2023

Fabric Hat may be sewn or serged

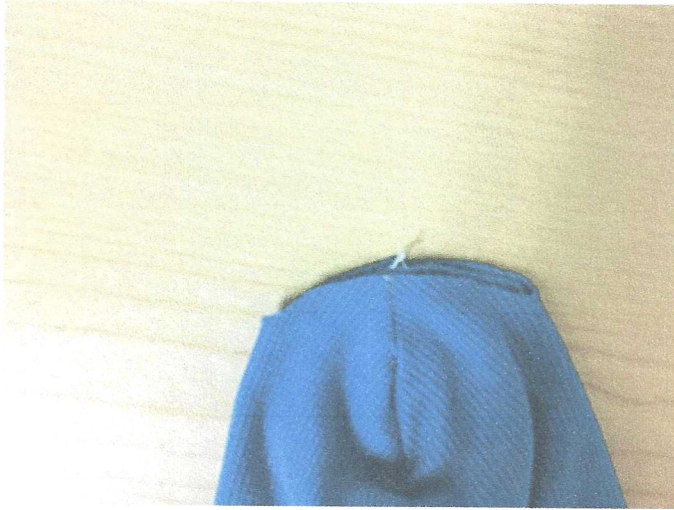

Fabric – very stretchy knit. Please do not use Jersey prints.

1. Fold fabric with right sides together. Cut out pattern as directed. Be sure the arrows for stretch are placed in the direction of maximum stretch of the fabric.
2. Sew around the cut edges from one end of the folded side, skipping the V's, around to the other folded edge.

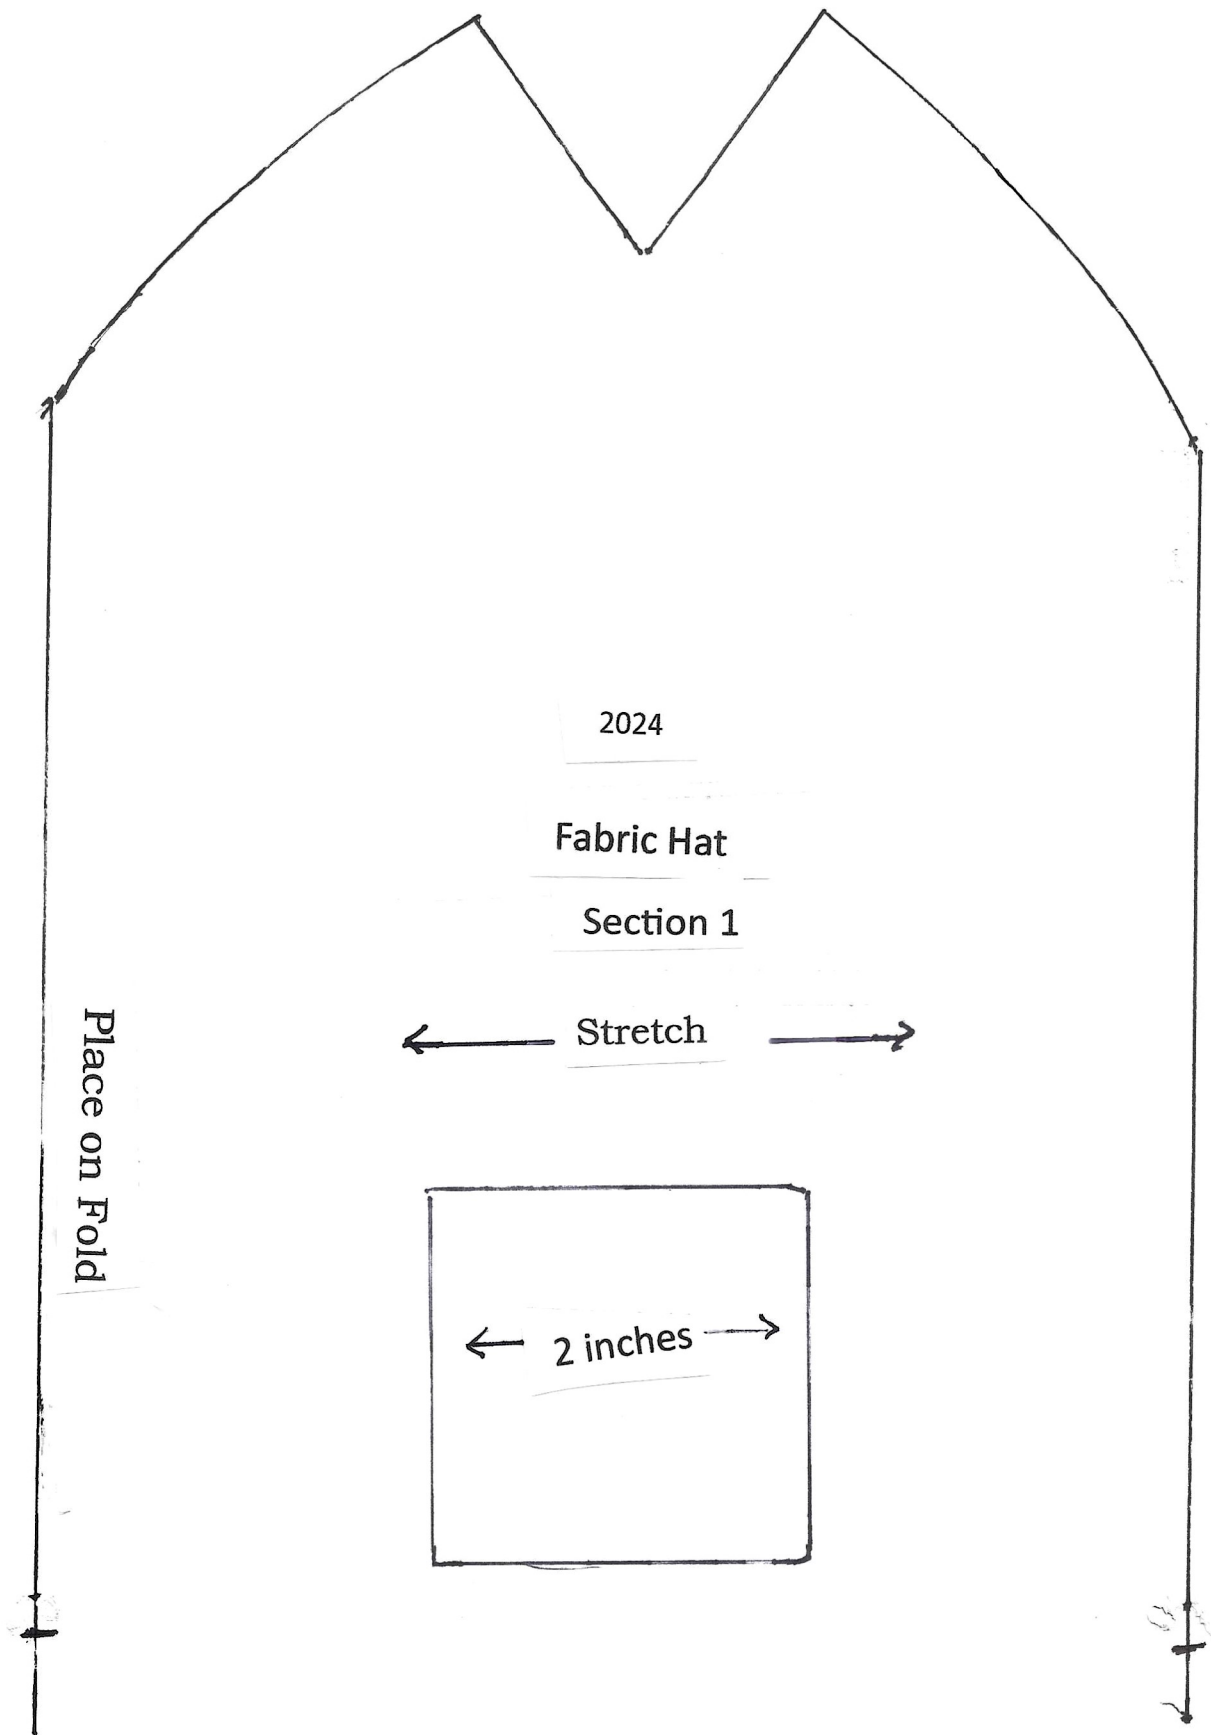

3. Fold the hat crosswise, with the seams inside. Be sure to keep the seams matched. The hat should lay flat.

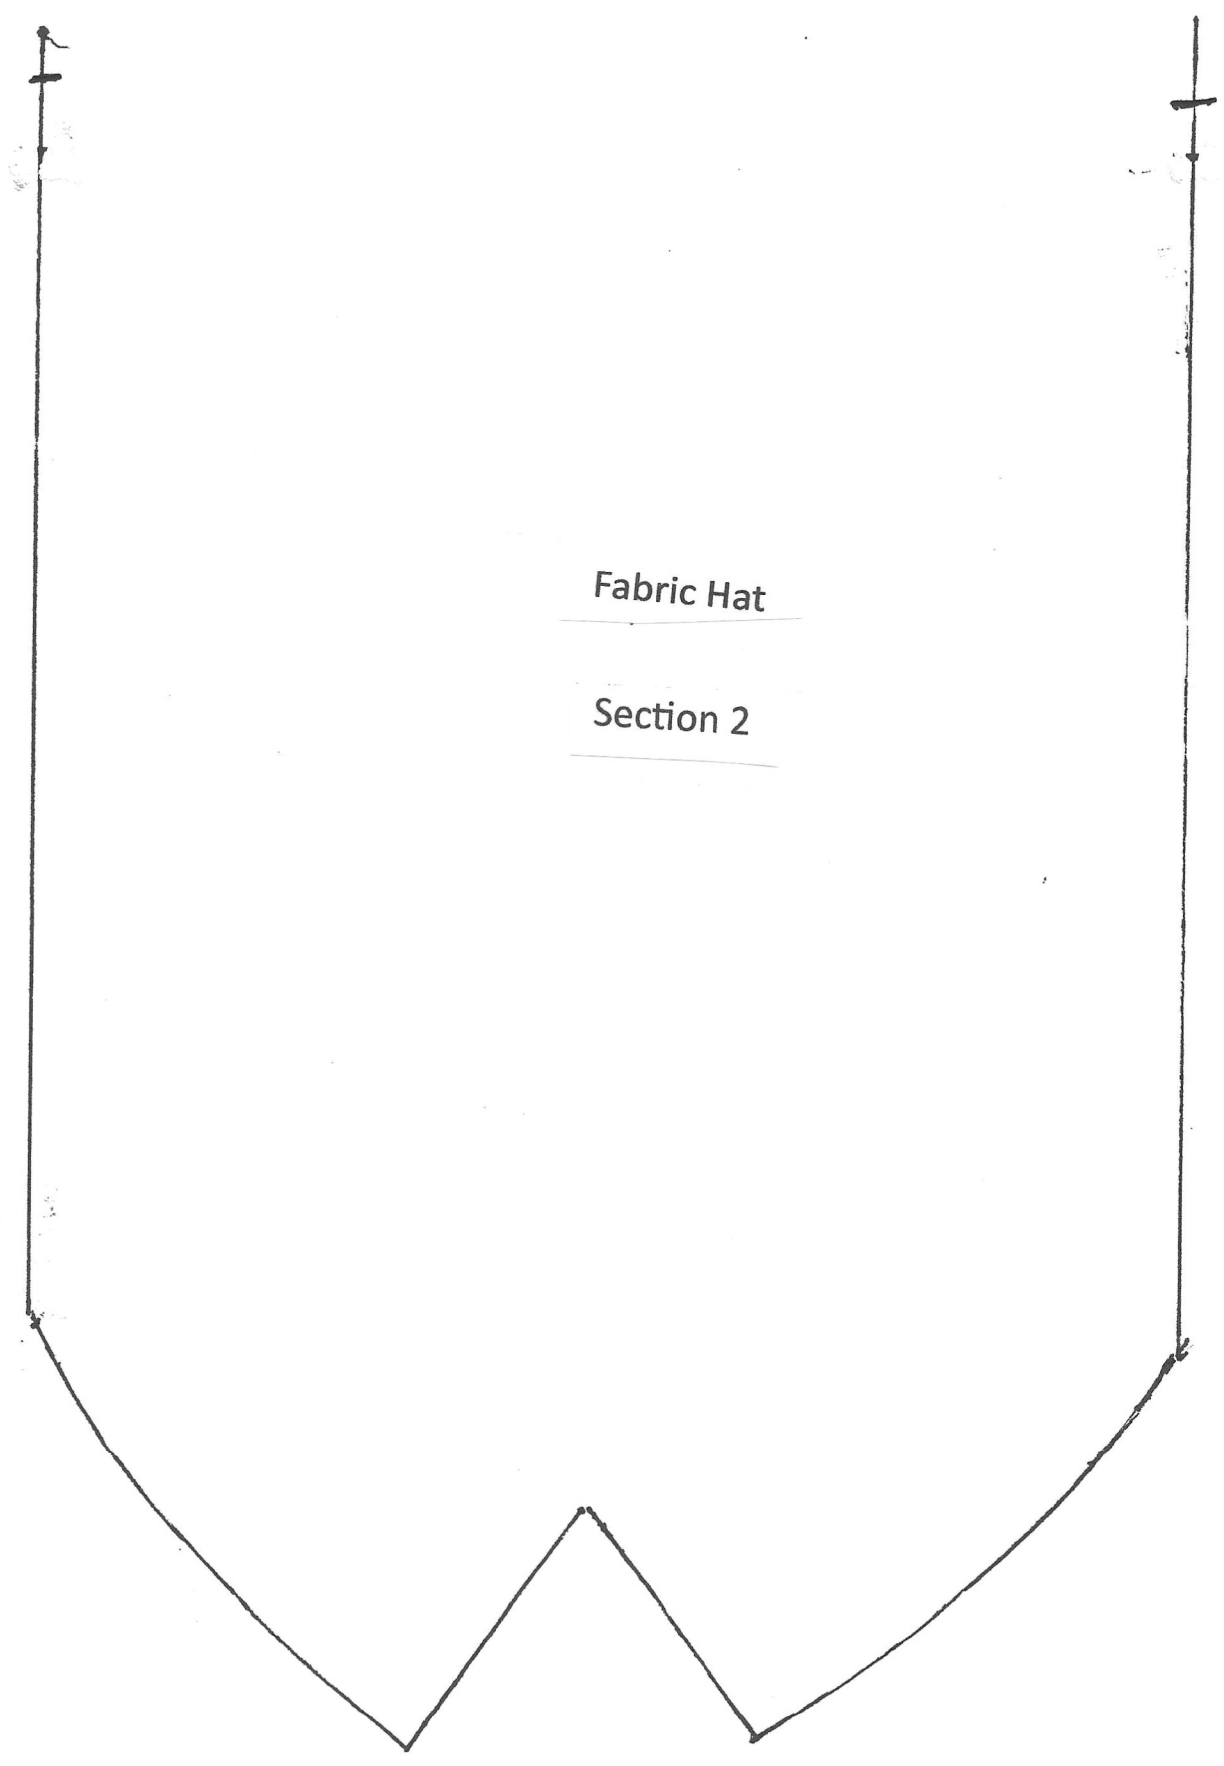

4. Match the open edges and seams. Sew across the edges, being sure to catch all edges.
5. Turn the hat right side out and turn up the cuff.
