Interlocking Plastic Floor Tile
... for Beauty & Comfort

Fast & easy installation

Complete floor solution

Nine great colours

The Fast-Flor Diamond tile system is a floating interlocking floor system - great for garages, basements, decks, balconies, and trade shows.

Laying the plastic 12" x 12" tiles is fast and easy.

Individual tiles are snapped together to form a continuous surface that is durable and comfortable.

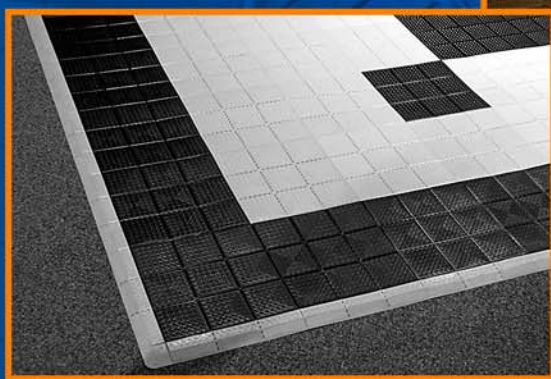

Features and Benefits

- Great Looks - Covers and beautifies existing floors
- Comfortable - Nice to work and stand on
- Versatile - Can be laid over old, worn and uneven surfaces
- Drainage - Perforations in tile allow water/moisture to drain
- Warm - Helps keep floor warm in winter, cool in summer
- Bright - Enhances your car, furniture and equipment
- Value - Adds value to your existing home or business
- Fast - Quick installation, takes hours...not days
- Colours - Create interesting patterns and designs
- Save - Do it yourself and save - it's easy!

Visit www.garagewares.com and create your own floor pattern!
