

## Purple Stuff For Cleaning Dog's Ears

### RECIPE:

16 drops of Gentain Violet (available from your pharmacist)

4 tablespoons boric acid

16 oz. rubbing alcohol

Mix ingredients together and shake well. Shake before using. If the dog doesn't mind you squirting stuff in their ears, squirt a little in each ear and rub them gently. Wipe clean with a cotton ball. Otherwise apply the solution generously to a cotton ball and use this to clean the dogs ears. Use as needed one or two times a day just as you would a commercial ear cleaner for dogs. All the ingredients can be found at your local drug store and most drug store pharmacies will carry Gentain Violet. The cost for the solution is less than \$10 and will make enough to share.

WARNING: *Gentain Violet will stain most anything it touches. So be careful when using it. Once the it is mixed with alcohol it's staining properties lessen but it will still stain. Be cautious when using it.*
