CASS Life Member, David Peat, has co-authored a book recently published.

A description and a link to the book is shown below.

Potvin, B., Rhen, N., & Peat, D. *Ten Strategies for Building Community with Technology: A Handbook for Instructional Designers and Program Developers*. Brush Education.

From the cover - *Ten strategies for Building Community with Technology* provides proven strategies developed over the authors' combined experience of more than 30 years designing and teaching online classes. The ten strategies demonstrate that technology does not have to impede community - instead, technology offers tools for building more effective learning environments than are possible with traditional, face-to-face classrooms.
