RIDGEVILLE CHRONICLE

BUILDING ON THE WORD

The mission of the Church of Jesus Christ is to lead unbelievers and to equip believers to an everlasting commitment to Jesus Christ. This mission will be accomplished through Biblical foundational preaching and teachings, promoting charity and Christian Fellowship to its members and community through love and unity.

VACATION BIBLE SCHOOL 2018

Join us on Sunday, June 10, 2018 for our **Kickoff to VBS**. We will have a cook out following morning service. Classes are Monday, June 11- Wednesday, June 13, from 6:30 pm – 8:00 pm nightly. This year's Youth VBS theme is **"Jesus The Kingdom Builder: Strong Families, Churches, and Communities."**

Biblical Presupposition: Jesus is The Ultimate Builder, building on Spiritual Strategy. (*Matthew 7:24-27*)

Application Principle: Individuals have little impact when working alone. But when gifts are combined through communication, collaborations, and cooperation, we can really make a difference...together. God gives us gifts and talents to employ not just for our own success, but also for the success of our community - one that is whole and thrives - one that begins with family.

The Andy Griffith Show is a unique television series that never goes out of style. I've often heard people say, "I wish we could go back to Mayberry; back to a simpler time when life was far less complicated". The names Andy Taylor, Barney Fife, and Gomer Pyle instantly produce memories of a particular show or situation.

We remember Andy for his selfless attitude and ability to find good in any situation. Barney had the best of intentions, but his methods always seemed to backfire. And Gomer may have seemed a bit naïve, but his compassion toward others was undoubtedly genuine. Basic values such as character, personal responsibility, honesty, and integrity were routinely exemplified by the show. For these reasons, Ridgeville Baptist Church of Inman, SC, will be **"Back to Mayberry"**. Come join us on our journey!

Medical News: What is Brain Cancer?

Brain cancer is a malignant growth of abnormal brain cells in the brain. A grouping of abnormal cells is called a tumor. Some tumors are benign and some are malignant. There are several different types of tumors that occur in the brain and spinal cord. Different cells in the brain and spinal cord give rise to various kinds of tumors. Spinal cord tumors and brain tumors may grow quickly or slowly. Even benign tumors may cause symptoms. The brain is the central organ that governs other organs and systems in the body, so all brain tumors need to be taken seriously.

Brain Tumor Dangers

The skull is a hard framework of bone. Tumors in the brain are dangerous because they press on areas of the brain as they grow. The skull is not able to expand to accommodate the presence of a tumor. When the tumor grows, it presses on the brain. Depending on which area of the brain is affected, this may cause problems with thinking, acting, seeing, and feeling. Factors that determine how dangerous a brain tumor is include the location, whether or not it can be surgically removed, and how quickly it grows, and whether or not it has the ability to spread.

Vacation

On vacation, all the to-do lists, business, and worries fall to the wayside, and relaxation takes over. Sometimes, though, many of us make the mistake of letting our time with God slip out of the picture as well. Vacation is the perfect time to be in awe of Who God is, and to be grateful for His blessings in our lives:

"How precious to me are your thoughts, O God! How vast is the sum of them! Were I to count them, they would outnumber the grains of sand – when I awake, I am still with you." – *Psalm 139:17-18, NIV*
