

NXG Pro Series indoor/outdoor speakers are unobtrusive, yet rugged enough to withstand the harsh effects of nature. All speaker components and mounting hardware are weather-resistant, and their UV treated ABS composite enclosures resist sun-fade and the harsh effects of long-term exposure to the elements. Their sleek cabinet design makes them ideal for mounting in corners or tucking under eaves, and the included mounting brackets allow for 180° of rotation for an infinite number of mounting solutions.

Pro Series Indoor/Outdoor Features

- Ultra-wide dispersion metallic anodized dome tweeters
- Metallic anodized injection-molded cone woofers with rubber surrounds
- 12dB Electro acoustic crossovers
- Gold 5-way binding posts
- Corrosion resistant, powder coated aluminum grilles
- Brass inserts accept universal speaker mounts
- Rust-proof adjustable mounting brackets
- Available in White (W) or Black (B)
