EXCEPTIONAL PERFORMANCE

RUNS IN THE FAMILY

...SO DOES EXCEPTIONAL VALUE

Pro Sapphire Series Interconnects

Bulk packaged and preferred by custom installers, Pro Sapphire cables deliver superior picture and sound. Features include beefy 24K gold plated connector ends, split center pins, and color-coded raised letters for a firm grip and easy signal identification. 1m-20m lengths.

Performance Series Interconnects

The Performance line features split center pins, bigger finger grips and a defined 2mm band of color for easy identification in dark spaces. Bulk packaged, NXG Performance Series cables provide industry pros with a quality cable at a budget price. 1m-20m lengths.

Custom Series In-Wall In-Ceiling Speakers

Designed for today's listening environments and lifestyles, the Custom Series combines impressive sound output, rich bass, high efficiency and sonic accuracy.

Pro Series In-Wall In-Ceiling Speakers

The Pro Series utilizes state-of-the-art drivers and crossover designs to deliver dynamic low bass extension, coloration-free midrange and optimum high-frequency imaging — a perfect match for today's high definition digital formats

Pro Series Indoor Outdoor Speakers

NXG Pro Series Indoor/Outdoor speakers include weather-resistant components and mounts, plus UV-treated ABS enclosures that resist sun-fade and the effects of long-term exposure to the elements.
