

Fleece Baby Cap

1. Cut four panels from fleece scraps. Be sure the fleece stretches and note the direction of the stretch of the fabric and the pattern notations.
2. Cut a piece of fleece 4" X 14" so the piece stretches lengthwise.
3. Use ¼" seams or serge.
4. Sew two panels together on the curved edges. Repeat.
5. Sew the two halves together.
6. Sew the short end of the band together and fold in half.
7. Mark the band into quarters.
8. Match the seam and the quarter marks to the seams of the cap panels.
9. Sew, stretching the band if necessary.
10. Turn the band down.
