

PJs (TWO PIECE SLEEPER) DIRECTIONS
(This is an alternative to the one piece sleeper)

TOP:

Use gown pattern for top; cut as directed for PJs
Cut 1 front and 1 back on fold. Cut 2 sleeves.

Cut 1 neck ribbing: 2 ½ inches x 10 inches - this measurement depends on the amount of stretch and rebound of the ribbing.

Cut 2 sleeve ribbings: 2 ½ inches x 5 inches

ATTACHING RIBBING: Make certain stitching has securely caught the ribbing and fabric before you begin stretching ribbing. Pull **ONLY** the ribbing.

Fold sleeve ribbing in half lengthwise. Press. Stitch to bottom of sleeve stretching the ribbing to fit. Do not stretch the sleeve. Press seam toward sleeve.

Stitch sleeve fronts to shirt front. Stitch **one** sleeve back to shirt back.

Stitch neck ribbing to neck opening. Trim off any excess ribbing. Press seam toward garment.

Stitch **one** side seam from sleeve cuff to shirt hem or you may want to stitch from bottom of shirt to edge of cuff.

The bottom edge of shirt may be finished with the serger as we do the lap front shirt.

BOTTOM:

Cut 2 pieces for the front and 2 for the back from the same pattern (4 pieces total)

Place right sides together and starting at top of pants sew center seam thru the crotch on both front and back

Place sections right sides together and sew side seam from top of pants to bottom of leg.

RIBBING:

At this point you can attach the ribbing along the bottom of each leg **OR** if you prefer you can sew the ribbing in a circle and attach after the inside leg seam is sewn.

Sew the inside seam, starting at the bottom of one leg, sew up thru the crotch, ending at the bottom of the other leg. Attach the ribbing, depending on which method of attaching the ribbing you prefer.

Join the edges of the ribbing forming a circle, divide in quarters and attach to top edge of pants, stretching only the ribbing – not the pants.

Cut 1 Piece of Ribbing for Waist of Pants 13" x 2-1/2" depending on the stretch of the ribbing

Cut 2 Pieces of Ribbing for Bottom of Legs 5" x 2-1/2"
