Emergency Contact _____ Emergency Phone _____

Athletic summer camps are an opportunity to enhance athletic ability, learn from qualified coaches, meet players in the program, prepare for the upcoming season and become familiar with the whole school culture and environment. Summer camps are an important aspect of athletic development and team cohesiveness. It is recommended that returning and incoming athletes attend summer camps, but it is not a requirement for making the team during the season of sport, nor does it ensure that an individual will make the team. Team selection is based on skill level, athletic ability, team needs, personnel needed and knowledge of the particular sport.
