

Built to benefit the stock producer:

- Heavy duty gates with slam latches for safety
- Stowable, split, aluminum treadplate ramps in rear
- Generous interior LED lighting

Built to protect the livestock:

- Bruise points eliminated, leading to increased milk production and stronger calves
- Rubber composite flooring for traction and easy clean-out

Options create a fully customizable interior:

- Choose gate quantity, location, and hinge placement
- Choose gate type: full gates (standard), 60/40 fixed, 50/50 swing, chute gate, or a combination
- Corashield anti-chip coating for walls and underside
- Rear worklight package
- Full chute alley between rear door and first level
