

PARENT COMMENTS

As part of our effort to continually improve our programs, we ask our parents for their thoughts and comments at the end of each school year. We are proud to share a sample of recent comments below:

- *“Fantastic program. My daughter’s lead teacher really made her flourish and grow and the love that her assistant has for the children is unstoppable. I feel so blessed to have had my daughter’s life touched by these amazing ladies. She has a fantastic foundation to move forward on.”*
- *“Overall my kids had a great year and I am very pleased with our experience with JCP Preschool. I think you went above and beyond during the COVID period doing more than we could have expected. I was so impressed the teachers continued Zooming the remainder of the year and it was obvious they put so much effort into still making us and the kids feel celebrated on Mother’s Day and Graduation.”*
- *“This was the first year for my son in this school and it has been one of the best times for him. The school has done wonders for him. His teachers have been a delight. Words are not enough to express my gratitude towards them.”*
- *“The school staff very kindly treated my son through all programs even though he does not communicate with teachers in English well. We hope he fully follows the program, but even if he only understands it partially, we are sure it must be his great foundation for his upcoming life.”*
- *“Everyone has always been super accommodating and wonderful, which is why we returned for our younger child this year. He absolutely loved it and we never felt like we were lost in the masses.”*
- *“My daughter and I loved her teachers! She learned SO much this year – more than I ever expected or imagined she would learn at preschool. She loved her teachers and I’m so grateful to be able to drop her off somewhere I know she’s loved well. I really enjoyed all the staff I met at JCP Preschool!”*
