Community Sunday News

Making 'Community Sunday' more about the community... When we gather together as a faith community on the first Sunday of each month, we want to come with something in our hands that may go towards a need represented in the community beyond the four walls of our church building.

C.S.P. (Community Sunday Project) **For February** Community Sunday Project (C.S.P) During this month of *love* we will be having love offerings every Sunday to replenish our funds on hand to help those in need

Remembering Our Missionaries in Prayer

MISSIONARY SPOTLIGHT

The Lord has been gracious to allow Dee Sudnick to serve in the Philippines for the past 17 years. With His direction, she hopes to continue to serve there. Her primary ministry is at Faith Academy, where she serves the children of those involved in ministry. She is the middle school guidance counselor, but also helps where needed. In the past, she has coached, taught various subjects at the middle school level, aided in curriculum development, and chaired the accreditation committee. The Lord has called her there to aid in building the church of tomorrow, so she loves to lead students into ministry situations, as well as taking some of her breaks to do ministries of her own. Most recently, she led the grade 8 students to an art and sports ministry to a school established for urban poor. She, herself, went to Tacloban to work with those still affect by the Typhoon Yolanda.
