Receiving Baptism

First grader, Mehlani Garcia, and her younger brother Bobby received the sacrament of Baptism following the Children's Mass on Sunday, September 29th. Congratulations to Mehlani and her family. May you be filled with God's grace.

Celebrating Priesthood Sunday

St. Agnes students led the 10:00 Mass on September 29th. Children from various grades handled all the ministries including: lectors, cantors, altar servers, greeters, ushers and choir members.

Father Konka was honored for Priesthood Sunday and the congregation was invited to help him celebrated 35 years in the priesthood at a doughnut reception following Mass.

A Visit From Diocesan Superintendent

Diocesan superintendent, Jordan Engle, visited St. Agnes on Friday, September 26th. He came bearing a donation for our scholarship fund. A generous trust fund through the diocese, continues to provide each of our diocesan Catholic Schools with funds for Catholic students. The \$15875 we received is helping 6 students with scholarship. We are extremely grateful for this support.

Discipleship Friday

The first Discipleship Friday was held on Friday, September 27th. Dressed in our new, colorful t-shirts, the students excitedly gathered to learn this years theme – The Marvelous Mystery – The Mass comes alive. Some well known detectives led 5 stations where students learned about the day's virtue – patience and about how what happens in the Mass is a Mystery. The students enjoyed a fun afternoon of music, prayer, snack, activity and art before closing with a fun skit and dance party. We look forward to learning more about the Mass as we experience our monthly Discipleship Fridays.

What's Happening at St. Agnes School.....

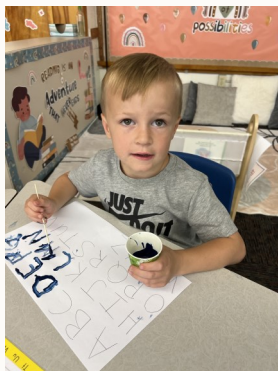

Pre-K Class By Nicole Boness

Pre-K just finished their apple unit. They enjoyed, trying different apples, applesauce, apple jelly, and apple juice. They learned different parts of an apple, how they grow, and got make their own apple to hang out in the hallway.

Next, we will be starting our fall Unit. We will be going on a couple of nature walks to gather leaves and look at different trees. They will then make their own collage of the items they gather to signify the different aspects of fall. We will be learning about different types of trees, talking about the weather changing and about the different colors of leaves.

Pre-K will continue to work on cutting, drawing people and writing their names. I can't believe we are almost done with our 1st quarter of school. It is going by so fast. These kids have learned so much and have continued to grow socially with one another. In the upcoming weeks we will be learning about pumpkins, going to the pumpkin patch in Bayard, and making some fun Halloween crafts in class.

Second Grade Class By Lori Svitak

September has come and gone! We are supposed to be in the season of autumn but it still feels like summer!

We have been busy in all subjects. In math, we are finishing Unit 3. During this unit we learned about arrays, skip counting, even and odd numbers, patterns and solving simple story problems. Our next unit, we will talk about part-part whole and two ways to solve addition and subtraction problems.

We enjoyed celebrating and learning about Johnny Appleseed. Outside our room is a wall full of apple math projects. We did apple graphing with red, green, and yellow apples. We tasted the three kinds and graphed our favorite in our class. The green apple was the winner. We also had a tasting party with many kinds of apple products. Some of those were apple butter, cider, pie, suckers, and apple cereal to name a few.

In art, we tried our hand at simple weaving. Mrs. Ascherl helped us make the beautiful owls located in the hallway.

Mr. Polk is helping our class learn how to use the IXL programs on the chrome books. The students look forward to him coming to our room.

Happy Birthday to Graham Jenkins.
