**DaJonaire Washington**

Imagine a classroom where every child feels seen, valued, and empowered to reach their full potential. In my TEDx talk, "Unveiling the Unseen: Navigating Implicit Bias in African American Classrooms," I will delve into the critical issue of implicit bias and its impact on the educational experiences of African American children. By shedding light on implicit bias in African American classrooms and offering tangible solutions, this TEDxBowieStateUniversity talk aims to spark conversations, inspire change, and contribute to a more just and equitable education system for all. A powerful call to action, urging the audience to be proactive in fostering inclusivity and challenging biases. Championing educational environments where every child, regardless of their background, can thrive and reach their full potential is what I hope the audience will receive.
