This year, Points of Light commemorates the 15th anniversary of 9/11 National Day of Service as part of an ongoing campaign to engage people in signature events that inspire, equip, and mobilize volunteers to give back to their communities. More than 15,000 volunteers — members of the military, veterans, first responders and their families serving alongside community members and corporate employees — will come together to participate in over 30 community events across the nation. Whole Man Ministries of NC is requesting your attendance at its Points of Light Days of Service project to volunteer for at least one hour on Saturday, September 10th.
