DETAILED COURSE DESCRIPTION:

Recent situations amplified awareness of how contact with human waste can cause severe health issues. This course is designed to expose OSTDS professionals to the safest methods possible when conducting their daily activities. Real-life examples and in-class exercises will be utilized to emphasize the need for SAFETY when working in the OSTDS Industry. All attendees must participate in exercises to receive CEU credits. Masters must pass exam to receive Master credit.

Instructor: Roxanne L. Groover 4(B)
