DETAILED COURSE DESCRIPTION: This class will follow the foundations taught in Accelerated Certification Training Program. The intent of the class is to provide instruction on the proper identification and documentation necessary to determine the soil's component of OSTDS design. All attendees will be required to participate in group exercises to receive CEU credits. Master contractors seeking Master credit must complete the assignments with a score of 70% or higher

Speaker Qualifications: Moderator: Roxanne Groover 4(B), OSTDS Professionals with Soils Training (Private CEHP, PE or PE Staff w/soils training, Soil Scientist, etc...)
