Electricity... an extra hazard on the job. (1.0 Credit Hour: M, R, C)

DETAILED COURSE DESCRIPTION: Often personal safety is overlooked until an accident occurs. This course will discuss how to outline your plan to minimize safety risks from start to finish. From site evaluations to final inspections, the wrong practices can put you and your employees at risk. Sessions will use a combination of videos and group exercises to address the safety challenges OSTDS professionals face every day. All attendees must take an exam. Masters must pass exam to receive Master credit.

Instructor: Roxanne L. Groover 4(B)
