DETAILED COURSE DESCRIPTION: Participants will be in a classroom setting for part of the morning and will be outdoors the majority of the day. Each station will be reevaluated to fit Florida OSTDS standards. The purpose of the course is to ensure that design, installation, and operation & maintenance procedures at each station meet the current code and recommendation of each manufacturer. At the end of the day each group will present their station to the attendees to review for correctness of information.

Instructor: Roxanne Groover 4(B)
