### DETAILED COURSE DESCRIPTION

By the end of this class, participants should be able to demonstrate the ability to:

- Properly install and provide O&M to each technology presented.  
The intent of the sections is to provide necessary instruction on the proper installation and operation & maintenance required for the various OSTDS technologies available in the OSTDS industry. Masters must pass exam to receive Master credit.
- Additionally, 1.0 Credit Hour will be given for time spent with exhibitors during two 30-minute sessions.

Speaker Qualifications: Roxanne Groover 4(B), various manufacturer/representatives (minimum of 4(A))

In case of cancellation of a guest speaker, the following subjects will be presented:

- 64E-6 and Advanced Treatment (1.0 Credit Hour: R, M, C)
- NSF 40, NSF 245, PBTS, INRBs, Innovative... What's the difference? (1.0 Credit Hour: R, M, C)

**Total number of classroom hours: 6**
