

The Gospel Wheel Part 2

Find *The Gospel Wheel Part 2* interactive training module associated with this resource under the Evangelism category at awana.org/clubclinic.

! Key Principles

The Gospel Wheel is a model you can use to share the gospel clearly and accurately. It guides you in starting a conversation about the gospel and gives you options on how to continue the conversation. If you are not familiar with the Gospel Wheel, visit awana.org/clubclinic and view *The Gospel Wheel Part 1* to learn the verses and sections that make up the Gospel Wheel.

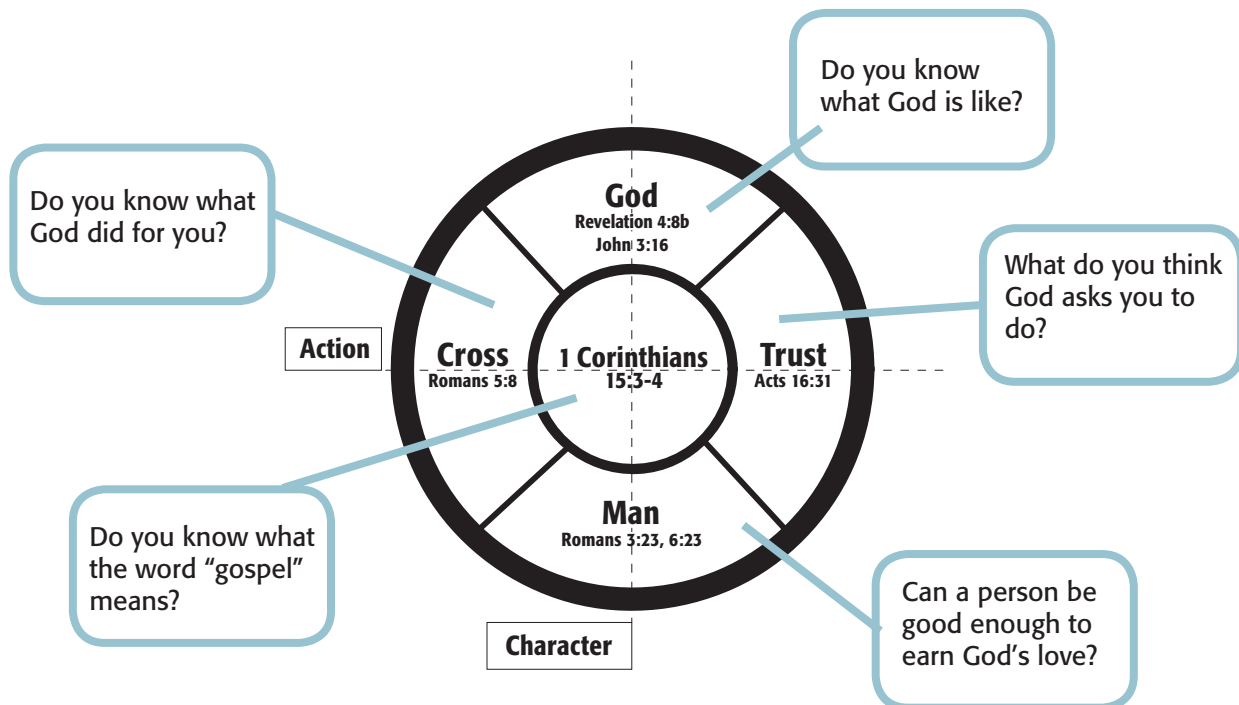

The best way to practice the Gospel Wheel is to use it in conversation. An illustration is sometimes helpful, but responding to a clubbers question or need will prove most effective.

Tips

Try these techniques when explaining the gospel.

1. Use Scripture. The real power of the Gospel Wheel is that it relies on God's own words to explain His message.
2. Give the clubber a chance to ask questions and listen to their concerns. Presenting the gospel doesn't mean you have to explain the whole thing from start to finish. Answer the clubbers questions and address their concerns.
3. Let the conversation drive your explanation of the gospel. The questions asked will guide you to the segment of the Gospel Wheel to explain first.
4. Ask some questions when sharing the gospel. Questions like these will get your clubber thinking about their own sinful nature and what God has done for them. Use the verses connected to the segment listed to clarify the answer if the clubber has trouble answering.

The goal is not to complete a flawless presentation, but to allow the Holy Spirit to compel a person to see the truth of Jesus Christ.

To hear more questions and responses, watch *The Gospel Wheel Part 2* interactive module at awana.org/clubclinic.

Stop and Think

Do you feel nervous when you are sharing the gospel? Stop and pray quickly before you start talking.

Resources
