

LILY POND INSTRUCTIONAL INSERT  
[WWW.TATOUAGEDESIGNS.COM](http://WWW.TATOUAGEDESIGNS.COM)

Instructions and Helpful Hints for applying the Tatouage Lily  
Pond

FIRST AND FOREMOST - PLEASE TAKE YOUR TIME!!!

1. Lay out all designs on a clean surface. Make sure to keep all protective backings on until you are completely satisfied with design placement. The completed pond measures approximately 29.5”h x 64.5”w.
2. Sheet No. 3 will be the first sheet you will apply. Sheet No. 3 is the bottom left of the pond, so please take this into consideration when you are measuring out your space.

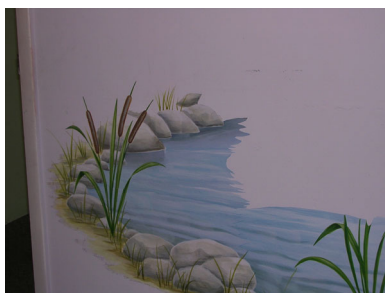

3. Next you will apply Sheet No. 1 which will go to the right of Sheet No. 3 which you applied in step two.

4. Next up is Sheet No. 5 which will go directly to the right of Sheet No. 1 which you applied in the last step.

5. Apply Sheet No. 4 next. Sheet No. 4 will be placed directly above Sheet No. 3 which you applied in step two.

6. Apply Sheet No. 2 next. This sheet is applied directly to the right of the sheet you just applied in step five.

7. Next you will apply Sheet No. 6. This sheet is applied directly to the right of the sheet you have just applied in step six.

8. Apply Sheet No. 8 next. This sheet is applied directly above the sheet you have just applied in step seven.

9. Apply Sheet No. 7. This sheet is applied directly to the left of the Sheet No. 8.

The hard work is now done!!! Become your own decorative artist by placing you extra sheets of cat tails around the pond. Add your ducks, ducklings and frog to complete your mural and bring it to life. Enjoy!!!
