

Instructions for Apple USB Interface Tool

- 1.) Install Java on your Apple: <http://java.com/en/>
- 2.) Check Security & Privacy Setting, we are considered a 3rd party application:
Go to System Preferences -> Personal -> Security & Privacy - Allow Applications Downloaded From: Select "Anywhere"

- 3.) Run the Application for your E-Collar Model.
- 4.) Report any errors to Greg at gvancuren.ecollar@gmail.com.
