BioEnergetic Stress Response/Wellness Evaluation Disclosure

As a Complimentary/Alternative Health Care Practitioner at BioScan, Inc., I am not licensed, certified or registered by the State of Colorado as a health care professional. I am not a licensed medical/primary care physician and do not pretend to be. I do not treat or prescribe remedies for the treatment of disease. The services I perform, whether in person or by mail or by phone, are at all times restricted to complementary and alternative health care services intended for the maintenance of the best possible state of nutritional health. I am prohibited from performing surgery or any invasive procedure, administer or prescribe x-ray radiation, prescribe prescription drugs, use general or spinal anesthetics, administer ionizing radioactive substances, use a laser device that punctures the skin, perform enemas/colonics unless board certified, practice midwifery, practice psychotherapy, perform spinal manipulation, practice optometry, directly administer medical protocols to a pregnant woman or a person who has cancer, practice dentistry, set fractures, practice massage therapy, provide a conventional medical disease diagnosis or recommend the discontinuation of a course of care recommended by a health care professional. I am also prohibited from treating children less than two years of age. In order to evaluate a child who is between 2-8 years of age, I must have a written, signed consent of the child's parent or legal guardian.

I believe in a holistic approach that does no harm, involves the total person, teaches rather than treats and recognizes the healing power of nature.

BioEnergetic/Stress Response Evaluation provides an opportunity to measure electrical responses and meridian flows of the body. BioEnergetic evaluation of the energy flow can identify stressors, focal disturbances or other situations that might impede the electrical process. The evaluation may include recommendations for homeopathic remedies, stress reduction methods and/or nutritional changes designed to establish balance and enhance overall wellness. These recommendations are not cures for any known diseases, nor have they been proven clinically to eliminate any specific disease process. **Recommendations are for adjunctive therapy only. A BioEnergetic evaluation is not a method of diagnosing nor are the suggested remedies designed to replace any of the medications or treatments currently being provided or recommended by a primary care practitioner.**

SERVICES Nutrition, Diet, Weight Loss, Homeopathy, Herbology, Bioenergetics/Stress Evaluation, Stress Management, Hormone Balance, Ion Foot Cleanse, Natural Health Consultations
