ePrescribing Consent

Associated Family Physicians is in the process of implementing ePrescribing in each of our offices.

ePrescribing is a federally mandated initiative that requires all physicians prescribe in this manner by 2011.

ePrescribing software sends prescriptions over the internet to your pharmacy in a safe, secure way, through the same technology used by credit card companies. This helps protect the privacy of your personal information.

ePrescribing software also lets your doctor see important information - like drug interactions and your prescription history.

The benefit to you:

- Less confusion over handwritten prescriptions or unclear phone calls
- Reduced possibility of medical errors
- Less chance of adverse drug reactions
- Fewer trips to drop off at the pharmacy
- A safer, faster, easier way to get your prescription filled

Patient Consent

I agree that **Associated Family Physicians** may request and use my prescription medication history from other healthcare providers or third party pharmacy benefit payors for treatment purposes. I understand that the only previous prescriptions downloaded will be prescriptions that I obtained using an insurance card.
