

Kenya ~ Team 1930

Eyeglass/Women's Ministry

Team Description

"Impacting the World for Jesus Christ"

DATES: August 24 - September 3, 2019

LOCATION: Kisii, Kenya

ESTIMATED COST: \$3,400 – 3,800

COST INCLUDES:

- Airfare
- Ground Transportation
- Housing
- Meals
- Logistical, Spiritual & Cultural Training Materials
- Trained Team Leader
- In-country Arrangements and Costs
- Supplemental Health Insurance
- Crisis Management Plan
- Team Medical Bag with Nursing Protocols
- 24/7 On Call Doctor

MATERIALS NEEDED FOR PROJECT:

- Each eyeglass team is asked to collect 3,000 pairs of eyeglasses to help replenish the inventory of eyeglasses we process for each eyeglass team.
- Witness materials are needed. Directions to make the witness materials are available on our [website](#).

PROJECT DESCRIPTION:

EYEGLOSS: Using a very simple testing system created specifically for MOST Ministries, this team will distribute eyeglasses to those in need. During the daily clinics, team members will test and fit patient's eyes with the appropriate corrective lenses. Depending on the number of team members, a team can serve 100-300 people daily.

All MOST Ministries' Eyeglass Clinic includes a witnessing station unless it is prohibited by the host country. At the witnessing station, the Gospel message and information about the home church is shared by the local missionaries, national pastors or the lay ministers. Team members are always welcome to work at the witness station or to share Christ's love with the patients as they come through the clinic.

HOST / CHURCH INFORMATION:

TENTATIVE WEEKLY SCHEDULE:

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
				Depart US	Arrive	Settle In/ Clinic Set up
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Worship	Clinic	Clinic	Clinic	Clinic	Clinic	Tour
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Worship/Tour	Depart					

ENTRY / EXIT REQUIREMENTS:

For entry into Kenya, passports must be valid for at least six (6) months beyond the team return date to the United States. If this requirement is not met you may be refused re-entry into the country. Please visit the [U.S. Department of State](#) website for additional information.

Ethiopian law requires travelers to have 1 fully blank passport page. The blank pages must be “visa” pages. A tourist visa is required to enter Ethiopia. You can apply for one at the airport upon arrival, but it is encouraged to obtain a pdf visa online at [eVisa](#). For more information regarding the eVisa, visit their website [here](#).

VACCINATIONS:

Before visiting COUNTRY, you may need to get the following vaccinations and medications for vaccine-preventable diseases and other diseases you might be at risk for at your destination:

Vaccination or Disease	Recommendations or Requirements for Vaccine-Preventable Diseases
Routine	Recommended if you are not up-to-date with routine shots such as, measles/mumps/rubella (MMR) vaccine, diphtheria/pertussis/tetanus (DPT) vaccine, poliovirus vaccine, etc.
Hepatitis A	Recommended for all unvaccinated people traveling to or working in countries with an intermediate or high level of hepatitis A virus infection where exposure might occur through food or water. Cases of travel-related hepatitis A can also occur in travelers to developing countries with "standard" tourist itineraries, accommodations, and food consumption behaviors.
Hepatitis B	Recommended for all unvaccinated persons traveling to or working in countries with intermediate to high levels of endemic HBV transmission, especially those who might be exposed to blood or body fluids, have sexual contact with the local population, or be exposed through medical treatment (e.g., for an accident).
Typhoid	Recommended for all unvaccinated people traveling to Kenya, especially if visiting smaller cities, villages, or rural areas and staying with friends or relatives where exposure might occur through food or water.
Cholera	Recommended for travelers in areas of active cholera transmission, which is assumed to be present in Kenya. Cholera is rare in travelers but can be severe. Avoiding unsafe food and water and washing your hands can also prevent cholera.
Meningitis	Recommended for travelers who visit the meningitis belt in Kenya during the dry season (Dec-June).
Polio	Recommended for travelers who are working in a health care facility, refugee camp, or humanitarian aid setting. This kind of work might put you in contact with someone with polio. <ul style="list-style-type: none"> • If you were vaccinated against polio as a child but have never had a polio booster dose as an adult, you should get this booster dose. Adults need only one polio booster in their lives. • If you were not completely vaccinated as a child or do not know your vaccination status, talk to your doctor about getting vaccinated.
Rabies	Rabies can be found in dogs, bats, and other mammals in Kenya, so it is recommended for the following groups: <ul style="list-style-type: none"> • Travelers involved in outdoor and other activities (such as camping, hiking, biking, adventure travel, and caving) that put them at risk for animal bites • People who will be working with or around animals (such as veterinarians, wildlife professionals, and researchers) • People who are taking long trips or moving to Ethiopia • Children, because they tend to play with animals, might not report bites, and are more likely to have animal bites on their head and neck
Yellow Fever	For information on recommendations and requirements, see yellow fever recommendations and requirements for Kenya . Your doctor can help you decide if this vaccine is right for you based on your travel plans.

AREAS OF KENYA WITH MALARIA:

Areas with malaria: Present in all areas (including game parks) at altitudes <2,500 m (8,202 ft) including the city of Nairobi.

Estimated relative risk of malaria for US travelers: Moderate.

Drug resistance: Chloroquine.

Malaria species: *P. falciparum* >85%, *P. vivax* 5%–10%, *P. ovale* rare.

Recommended chemoprophylaxis: Atovaquone-proguanil, doxycycline, or mefloquine.

If you are interested in learning more about Kenya’s religious statistics, please visit [Joshua Project](#).

CONTACT / APPLICATION INFORMATION:

MOST Ministries believes that the work of foreign missions must be a direct response to the requests and needs of the mission field. Through strategic planning, areas of need are identified and a plan of action is set in place to enable team members to utilize their gifts and talents in meeting those needs. If you are interested in utilizing your gifts in touching the lives of people in Kenya, please contact Sarah DePriest at (734) 994-7909 ext. 3 or sdepriest@mostministries.org.
